

ENABLING QUALITY IMPROVEMENT IN PRACTICE

Tower Hamlets Our Latest Newsletter (16/12/2019)

Hello all, Season's Greetings!

Fresh dates for training into 2020...

- [EQUIP Basics ½ day training](#) – short and sweet: perfect for those seeking an introduction to improvement or a light refresher. Consider this an improvement amuse bouche. Like a vol-au-vent (mmmmmmmmmm... remember the '80s), but made of Post-its.
- [EQUIP in Action](#) – this is more your full turkey dinner with all the trimmings and a Gaviscon chaser: 3×1 day coached action learning over 3 months (Feb-May). One for the connoisseur – a great opportunity to learn more of the theory and practice of improvement with colleagues across health and care whilst working on your own projects. Delicious!

Reservations essential! Don't miss out.

Tom
