

We now have a named PPG champion in our staff team

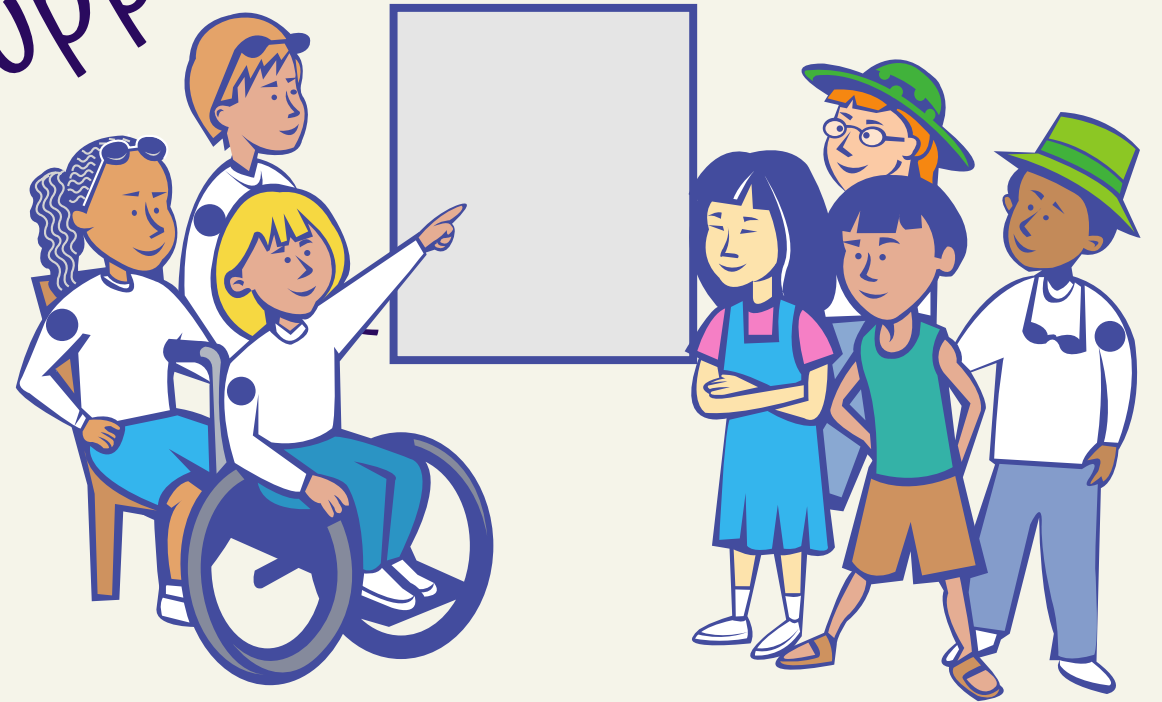

A small number of committed PPG members really helped to keep us focused

We think it's important to keep our website up to date with PPG information

Innovative support

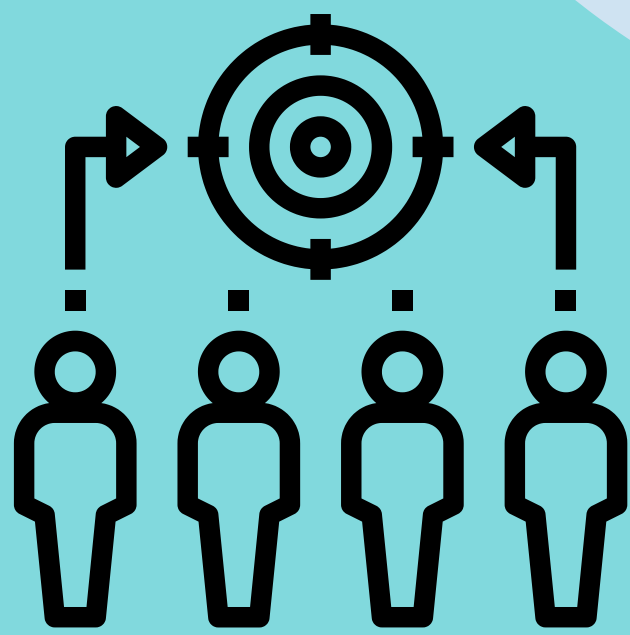

25 Newham students helped to create posters to advertise the PPG. Many also told their families what a PPG is!

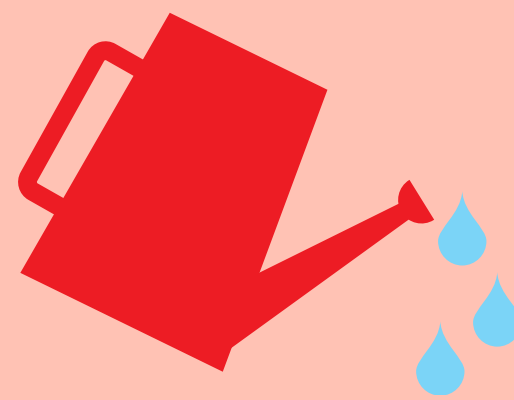

Aim

To Increase Engagement in the Penrhyn Practice Patient Participation Group (PPG) by Feb 2021

Focused Topics

PPG Meetings focused on a specific topic (such as the vaccine) are a good way to increase engagement. We also found virtual meetings can be successful (but make sure people have a dial-in option)

COMMUNITY

We successfully bid for money to improve our gardens and we aim to start a patient PPG gardening group when we can.
