

ENABLING QUALITY IMPROVEMENT IN PRACTICE

## **Our Latest Newsletter (7<sup>th</sup> February 2023) EQUIP In Action Training Training Dates for 2023!**

### **Hello!**

Are you ready to gain a deeper insight into Quality Improvement and enhance your QI superpowers by equipping your team with the methods and qualities needed to fulfil QI projects? Then join our three-day action packed EQUIP In Action training session!

There is the opportunity to either join the training in person, where you will be able to enjoy the face-to-face interaction with your peers (and tuck into free food and drink), or you can join online if more convenient for you.

You will need some basic QI knowledge to enrol into the course. However, not to worry if you don't have this yet, or are just in need of a refresher - we also hold [Fundamentals of QI Methodology](#) training, where you can first pick up/brush up basic QI tools.

### **Why Join?**

The training, conducted by our expert coaches, will provide practical tips on how to effectively carry out and complete QI projects. You will work through real life primary care examples that which have led to improvements, which will help you to learn and use new skills to reach success in your own projects.

### **Who can register?**

Anyone within general practice can register, whether you are a doctor, admin/reception staff or part of the wider clinical team.

Please do remember that you do need to attend all three days to complete the course.

### **Is any pre-session prep needed?**

If you are joining an online session, then please test your camera and microphone before the session!

## Sign Up Now
