Fundamentals of QI Methodology Training
In Person Training Dates for 2023!

Hello!

We have some exciting news! In addition to the online Fundamentals of QI Methodology Training we are already running this year, two additional in person training dates have been added to this year's schedule.

Why join in?

The Fundamentals of QI Methodology training will give you the essential tools to make practical changes to your practice.

During the training, you can bring real-life examples of challenges in practices and tackle your problems with QI tools.

A mixture between theory and practice make the two and a half hours training session interactive and dynamic.

You will also have to opportunity to engage with and collaborate with your peers in person and of course enjoy the lovely free food and drink available that day.

Who can register?

Anyone within the practice can register, whether you are a doctor, part of the clinical team, admin/receptionist or management team.

You need to attend only one session, so please pick the date that suits you best and register on Eventbrite.

Sign Up Now!

To join the **FREE** training, please sign up on the below via the Eventbrite link.
